ERSCB Multi-agency Training Programme 2018

Welcome to East Riding Safeguarding Children Board (ERSCB) 2018 Inter-Agency Training Programme. This programme offers an exciting and challenging series of courses addressing the multiple and complex range of issues that may compromise the welfare of children living in East Riding.

ERSCB is committed to delivering high quality inter-agency training which supports professionals, volunteers and the independent sector in their work, complimenting individual agency training strategies. Our range of courses and briefings are designed to ensure that anyone working with children and/or their family members has the knowledge and skills they need to deliver effective services to ensure children are safeguarded and their welfare promoted.

In the programme you will see a mix of well-established and new learning opportunities all of which are informed by national guidance and legislation, local policy, procedures and guidance, and ERSCB Learning and Improvement Framework.

Learning opportunities are provided through a variety of means including e-learning, full and half day face to face training and briefings. Where possible these are delivered in locality areas in order to promote inter-agency working and provide networking opportunities for the various agencies attending.

Take time to look at the course aims and learning outcomes available at www.erscb.org.uk to help you to choose a course relevant to the development of your skills and knowledge. Please discuss your learning needs with your line manager and ensure you have their approval prior to application.

Finally keep an eye on www.erscb.org.uk/training as additional course dates or new courses will be posted throughout the year.
